

STYLUSCLEANER

# WENZEL StylusCleaner

Clean your stylus in just 20 seconds

CLEAN STYLI  
IN ONLY 20 SECONDS

# WENZEL StylusCleaner

## CLEANS YOUR STYLUS AUTOMATICALLY

Dirty styli can significantly influence the measuring result and damage the reliability of your measuring machine. We offer the solution to integrate the cleaning of the stylus into the measurement. In this way, conspicuous measurement results due to dirty probes can be avoided in the future. The WENZEL StylusCleaner cleans your stylus automatically, even during measurement.

The combination of compressed air and cleaning agent cleans the button and removes all dirt from the stylus in only 20 seconds. Thanks to the WENZEL StylusCleaner, you no longer need to clean the stylus manually which is very time consuming and requires recalibration of all probe positions.

## FEATURES

- **Cleaning of the probe in only 20 seconds** with compressed air and cleaning agent
- **Easy installation** on the machine
- **Integration** on the measuring plate with free space allocation
- **Enables measurement results** to be secured even on the shop floor where the air is not optimally clean or there is dirt residue on the component

## YOUR ADVANTAGES AT A GLANCE

- **Fewer recalibrations**  
Manual cleaning of the stylus and recalibration no longer necessary
- **Reliable measurement results**  
Higher reliability of your measurement results
- **Simultaneous operation**  
Stylus can be cleaned during measurement
- **High speed**  
Cleaning process takes only 20 seconds
- **Maximum cleaning performance**  
The combination of compressed air and cleaning agents reliably cleans the stylus

## APPLICATIONS

1. The stylus moves along the activation sensor. This starts the cleaning cycle

2. As soon as the stylus is above the cleaning unit, the stylus can be cleaned

3. The stylus moves up and down through the cleaning unit for 20 seconds

4. The stylus is cleaned by the use of compressed air

5. When the stylus is back over the cleaning unit, the cleaning cycle is complete and the probe is clean again

## INNOVATION MEETS TRADITION

The WENZEL Group is a market leader in innovative Metrology. WENZEL offers a comprehensive product portfolio in the fields of Coordinate Metrology, Computed Tomography and Optical High Speed Scanning. The technology of WENZEL is used in all industries, including the automotive sector, aeronautics, power generation and

medicine. WENZEL looks at today on an installed base of more than 10,000 machines worldwide. Subsidiaries and agencies in more than 50 countries support sales and provide after-sales service for our customers. The WENZEL Group today employs more than 600 people.
